Double Up Food Bucks

Double Up Food Bucks is a program designed to help those who use SNAP (the Supplemental Nutrition Assistance Program also known as food stamp) have better access to healthy foods. By taking advantage of this program, participants can get more for their money when it comes to fresh fruits and vegetables. The program works at many Farmers' Markets and grocery stores in Kansas and Missouri. For a full list of participating locations you can visit their website at http://www.doubleupheartland.org/locations/.

The program allows a SNAP user to double the amount of money they spend on fresh produce up to $25 per day. When visiting a Farmers' Market, the user would swipe their SNAP card at the Farmers' Market booth and receive tokens that can be used like cash at vendor booths. For instance, if the card is swiped for $5, they would get $10 in tokens. These cannot be traded in for cash. At a grocery store, the user would check out as usual and the cashier would give them a coupon or add the money to a loyalty card and can be used that day or they can save it for their next trip.

The program’s success is rooted in partnerships — with local markets who bring it to life in their

SPIL Workgroup: Employment

The Statewide Independent Living Council of Kansas (SILCK) has a Statewide Plan for Independent Living (SPIL). What is the SPIL? The SPIL was developed from feedback they received from people with disabilities and community partners from all areas in Kansas. There are four SPIL workgroups in Kansas to work on increasing access and independent living for Kansans with disabilities. The workgroups are housing, employment, transportation, and outreach. Today we are going to give you updates on the SPIL employment workgroup.

The SPIL employment workgroup consists of persons from many different agencies such as Centers for Independent Living, Managed Care Organizations, the Kansas Council on Developmental Disabilities, and other disability services providers.

**Continued on page 2**
Women with Spinal Cord Injury (SCI) or Physical Disabilities Needed!

Are you a woman with a spinal cord injury (SCI) or with a physical disability who is thinking about getting pregnant, currently pregnant, been pregnant before, or have decided not to get pregnant?

Researchers from The University of Michigan are working to create a tool that women with SCI or with a physical disability can use when making the decision about whether to become pregnant. Right now, they are working to figure out what should be included in this tool. They will then test it with women to see if it’s helpful. To be eligible in this study you must:

- Be female
- Be 18 years or older
- Speak English
- Fall into at least one of the following groups:
  - Thinking about getting pregnant
  - Currently pregnant
  - Been pregnant before
  - Have decided not to get pregnant

What is involved? Study participation involves a telephone call to determine whether you are eligible for the study and the completion of an online survey. Compensation for study participation is $25.

For more information please call The University of Michigan at 734-615-8543 or 734-763-9374.

SPIL Workgroup: Employment Continued

Continued from page 1

The workgroup welcomes any consumer or businesses that would like to participate! The workgroup continues to focus on three main goals which are: 1) Providing opportunities for people with disabilities to learn about work incentives, 2) Providing opportunities for employers to learn the benefits of hiring persons with disabilities, and 3) Preparing or partnering with other agencies to support Disability Mentoring Day (DMD) efforts. Workgroup members recently participated in the Employment Summit in Butler County. Currently, workgroup members are preparing to submit feedback and recommendations on employment services to the Secretary of Kansas Department for Aging and Disability Services (KDADS).

The workgroup continues to meet every other month via conference call or in person depending on the meeting agenda. During the meetings the participants are able to share ideas and resources, learn about upcoming or completed employment related events, discuss any barriers they are facing, and offer ideas and supports to overcome those challenges. The workgroup is open to anyone who is interested in joining and persons with a current or previous employment experience can be especially helpful. The workgroup would especially like to invite employers and business owners to join and help carry out the goals mentioned previously.

If you are interested in joining the workgroup or learning about your employment options contact Adam Burnett at the Osage City RCIL office at 785-528-3105.
Throughout the year, the Resource Center for Independent Living, Inc. (RCIL) accomplished several great things, including recognizing Pat Peterson memorial contributions, offering consumer-directed trainings, independent living skills class on employment, partnering with the Kansas Disability and Health Program, educating elementary students and faculty members about disability history and awareness, teaching independent living skills to youth, hosting their 3rd annual Trunk or Treat, and hosting four durable medical equipment donation drives. While the accomplishments described below highlight some of the great things that happened at RCIL, there is great pride in the many accomplishments for 2018 and we are excited to find out the opportunities and challenges RCIL will face in 2019!

**Pat Peterson Memorial Helps Purchase Portable Ramp**

RCIL wishes to thank the family of Patricia Peterson for naming RCIL as the beneficiary of memorial contributions made in her name. As a founding board member of RCIL, Mrs. Peterson was instrumental in creating and overseeing RCIL in 1984 which has since then realized significant growth and served thousands of Kansans with disabilities over the last 34 years.

The memorial donations made by Mrs. Peterson's loved ones were used toward the purchase of a 27 foot portable, accessible ramp that is now available for temporary loan (up to 90 days with an option to extend an additional 90 days), free of charge to assist residents of Osage County while rehabilitating from illness or injury or until a permanent ramp can be built. RCIL has recently received several inquiries for such ramp and recognizes that having a temporary ramp may expedite discharge from a hospital or nursing facility.

**RCIL Consumer-Directed Trainings**

During 2018 RCIL facilitated a RCIL Consumer-Directed Training during RCIL Friends group meetings in El Dorado, Eureka, Fort Scott, Iola, Osage City, and Paola. There were 29 individuals that attended the training to learn how to self-direct their Home and Community Based Services (HCBS). Training topics included: How to be the employer of their Direct Support Workers (DSWs) including recruitment, screening, interviewing, hiring, training, managing and dismissing their DSWs, Enhanced Care Services, Setting the DSWs Schedule and Wage, Kansas AuthentiCare, Medicaid Fraud and Abuse, Neglect and Exploitation. A copy of the RCIL Consumer-Directed Handbook was given to all participants to take home and use as a resource. RCIL plans to offer more RCIL Consumer-Directed Trainings at several RCIL Friends groups during 2019.

**IL Skills Class on Employment**

RCIL offered its first-ever employment skills class to 12 consumers and other stakeholders on May 24, Continued on page 4
2018 Highlights & Donors

Continued from page 3

2018 in Emporia. The class focused on pre-employment skills such as job searches, resume writing, the application and interview process, and other programs and resources that can support consumers as they seek and obtain employment. Additional employment service and support providers (Vocational Rehabilitation, the Workforce Center, and a Benefits Specialist) also presented their information. RCIL hopes to offer this training in other core counties in the future.

RCIL Partners with Kansas DHP on Health Care Access

The Kansas Disability and Health Program (DHP) selected RCIL as one of the five Centers for Independent Living (CILs) in the state to conduct a total of 10 health care and fitness facilities assessments by using the Community Health Environment Checklist (CHEC). The CHEC is a tool for measuring how usable public spaces are for people with disabilities.

RCIL and other CILs representatives completed and passed the online training to conduct a CHEC assessment for mobility. Each CIL representative conducted two assessments in their areas. These included seven medical clinics, one vision clinic, one dental clinic, and one fitness center. Each site received a score for usability based on a possible 100 points. There were two reasons for a deduction in points and they were lack of an accessible exam table and lack of an accessible scale. When provided with their scores, several of the clinics made changes promptly. Two of the medical clinics installed a lower reception counter that is less than 26 inches high. Many other clinics are committed to make changes including widening the only accessible parking space.

The CHEC assessments resulted in increased awareness among facility staff of disability access issues and new relationships between CILs and medical providers in their communities. The DHP will partner with CILs again in the coming year to conduct more CHEC assessments and develop relationships with other health care providers in their communities.

Disability History and Awareness Day

RCIL received an opportunity to educate students and faculty members about disability history and awareness at the Sunflower Elementary School in Paola. The event was held on April 19, 2018. They educated approximately 300 4th and 5th grade students and school staff participated with the students in six stations designed to give them information or experience of what it is like to have a disability. A RCIL board member participated in this event by bringing her accessible vehicle to demonstrate how her vehicle operates for people with disabilities. RCIL invited Ms. Wheelchair Kansas and she came and shared her story and her roles on being a Ms. Wheelchair Kansas. The four other stations were a hearing loss activity, a beep-ball game simulation, a wheelchair maneuvering course, a Braille exercise and a video featuring children with disabilities.

By the end of the day the local newspaper came and reported on the activities and purpose. The students

MANAGING YOUR DIRECT SUPPORT WORKER
Do Not Exceed Your Authorized Services

One of the most important responsibilities of self-directing your own care is managing and overseeing the time worked by your Direct Support Worker (DSW). As the employer, it is your responsibility to make sure your DSW(s) do not work more than the services authorized by your Managed Care Organization (MCO).

Allowing your DSW(s) to work over the time authorized by your MCO is a violation of your Financial Management Services (FMS) contract for Home and Community Based Services (HCBS) and may jeopardize your ability to self-direct your care and/or your services.

RCIL is here to help you avoid these issues but cannot be expected to manage your DSW(s) time. This is your responsibility as their employer.

There are many ways to do this by utilizing some of the following tips:

1. Know what services, and the amount of those services, your MCO authorized for you. Some examples of services are:
   ✓ Personal Services
   ✓ Enhanced Care Support (Sleep Cycle Support)
   ✓ Comprehensive Support Services
   ✓ Overnight Respite

   You should receive this information from your MCO when you complete your assessment with your MCO care coordinator. If you have questions about what services, or the amount of services your MCO has authorized you to receive, you can either contact your care coordinator with the MCO or your FMS provider. If your FMS provider is the Resource Center for Independent Living, Inc. (RCIL), we can provide you with the latest information we have from your MCO.

2. Work with your DSW(s) to determine a schedule that will work for both of you.
   ✓ Monitor your DSW(s) time to ensure they are working the schedule you have established
   ✓ Write down your DSW(s) clock in and out times to keep track of how much time has been worked and what you still have available for the week (or the month)
   ✓ Make adjustments to the DSW(s) schedule, if needed, to meet your needs but remember to include those adjustments as time worked to ensure you do not exceed your authorized services
   ✓ If you have more than one DSW performing the same service, all time worked by each DSW must be added together to guarantee they will not exceed your authorized services

3. Make sure your DSW(s) clock out on time!
   ✓ Set an alarm on your phone, oven, microwave or alarm clock to alert you that it is time for your DSW to clock out

4. Call RCIL to check the time worked.
   ✓ You can always call RCIL to check the services and time already worked by your DSW(s) in a week/month if you are unsure of how much time you have left
   ✓ Some service plans have authorizations for hours per week and some authorizations are for units per month. If you are unsure how your service plan is written, contact your MCO care coordinator or RCIL. If your service plan is written for units per month (more often seen for consumers receiving services on the Intellectual/Developmental Disability waiver), please monitor the time worked throughout the month to ensure your DSW does not exceed the authorized services at the end of the month.

RCIL is hosting Self-Direction Trainings to help you be a better employer of your DSW(s). The 2019 trainings are currently scheduled for the following dates and locations:

- August 27th - Eureka
- September 18th - El Dorado
- October 9th - Fort Scott

Call RCIL at 1-800-580-7245 with any questions you have on directing your own services or information on attending a Self-Direction Training near you.

Summer 2019
and faculty members were inspired and had a better understanding about people with disabilities. The overwhelming positive feedback from teachers and students has prompted plans to continue to educate on disability history and awareness at their school in the future.

**Transition Age Independent Living Skills**

In 2018, RCIL provided Transition Age Independent Living Skills (TAILS) training to seven youth at the Next Step Academy on April 6th and May 4th. Two training sessions included information on online safety, voting rights and responsibilities, community & employment resources, and housing options, rights, and responsibilities. All TAILS participants were offered the opportunity to work with an RCIL Independent Living Specialists (ILS) one on one to create a personal independent living goal.

**RCIL 3rd Annual Trunk or Treat**

On October 29, 2018 RCIL had their third annual Trunk or Treat in the parking lot at the RCIL Osage City office. This event was open to the public to participate by bringing treats to hand out from their trunk or bringing children dressed in costume to enjoy the event. Several RCIL staff participated in this event by decorating their trunk, dressing up in their Halloween costume, and/or passing out candies. This was RCIL’s first year to offer a couple of games for children to participate in during the event. The scavenger hunt and witch hat ring toss game were a success. RCIL served over 100 hot dogs to children and adults during the event. This event was a great success and it has increased awareness about RCIL!

**Kansas Equipment Exchange Donation Drives**

During October 2018, the RCIL Kansas Equipment Exchange (KEE) program hosted four durable medical equipment donation drives at various locations in the Northeast part of Kansas. The donation sites were located in Hiawatha, Osage City, Ottawa, and Topeka. They received a variety of durable medical equipment from all of the sites. They were able to refurbish the equipment and provide it to Kansans with disabilities free of charge.

Besides the donation drives, RCIL’s KEE program accepts donated durable medical equipment throughout the year. The examples of donated durable medical equipment are manual and powered wheelchairs, scooters and power operated vehicles, communication devices, hospital beds, patient lifts, shower chairs, standers and gait trainers, bi-pap and c-pap machines, walkers with seats and handbrakes, and many more. RCIL appreciates the generosity from Kansans who donated durable medical equipment to the KEE program. It has helped Kansans with disabilities who received equipment from the KEE program increase their independence in their every day life.
RCIL serves more than 1,500 individuals through our many programs and services every year. While we receive funding from state and federal grants and waiver programs, many of our programs and services would not be as successful without the continued support of local businesses, organizations and individuals. In 2018, we were able to add new equipment to the Anita Casey Equipment Loan Program, build one ramp and share with community members issues concerning the disability community. These are just a few of the great ways RCIL is able to use donations to serve Kansans with disabilities. We cannot thank our donors enough, but we would like to recognize the many businesses, organizations and individuals who helped make 2018 a successful year for RCIL.

RCIL had a few fundraising opportunities during 2018. RCIL was selected to be a part of the Chiefs fundraising program during the 2018 season. RCIL received $10 for each ticket purchased on 8 selected home games. RCIL registered with Amazon Smile Foundation. It allows customers who shop on Amazon Smile to select RCIL or another charity of their choice when purchasing items. RCIL will receive 0.5% donation from Amazon Smile Foundation on any eligible purchases that were chosen to donate to RCIL. RCIL also registered with Network for Good and posted the link on their website. It provides online fundraising for non-profit organizations. When visitors view the RCIL website they have an opportunity to make financial donations to RCIL through Network for Good.

RCIL accepts monetary donations for their general fund or the fund designated by the donor. RCIL also accepts gently used durable medical equipment for the Anita Casey Loaner Equipment program and Phyllis Patteson Loaner Equipment program. Furthermore, RCIL has a Volunteer Program to allow individuals who want to volunteer their time and have a meaningful experience at RCIL.
Enter For Your Chance to WIN a FREE Prize!

To be entered into a drawing for a FREE prize, complete the quiz below and turn it in to RCIL by July 17, 2019 in the following ways:
- By mail: RCIL P.O. Box 257 Osage City, KS 66523
- OR e-mailing your answers to info@rcilinc.org

The winning ticket will be drawn on July 18, 2019 and the prize will be mailed to the winner on the same day.

Fill in the Blanks

1. The SPIL Employment workgroup is focusing on three main goals. One of their goals is preparing or partnering with other agencies to support Disability ________ Day efforts.

2. By taking advantage of the Double Up ________ program, participants can get more for their money when it comes to fresh fruits and vegetables.

3. RCIL is hosting self-direction trainings in ____________ , El Dorado, and Fort Scott.

4. RCIL offered their first-ever ________ skills class on May 24, 2018 in Emporia.

5. In 2018, RCIL was one of the five Centers for Independent Living selected by the Kansas Disability and ________ Program in the state to conduct a total of 10 health care and fitness facilities assessments by using the Community Health Environment Checklist (CHEC).

communities, organizations who help extend its impact with targeted outreach and complementary programming, and major statewide organizations, including the Kansas Department for Children and Families and the Missouri Department of Social Services.

Over 1.1 million Kansas and Missouri residents rely on federal food assistance via the SNAP program. Double Up Food Bucks makes it easier for low-income families to eat fresh fruits and vegetables while supporting family farmers and growing local economies. Every federally funded SNAP dollar generates $1.79 in economic activity. Don't hesitate to ask your local grocery store if they participate!

What does the ADA stands for?
The ADA stands for the Americans with Disabilities Act. Each RCIL Friends group is celebrating the ADA in July. Go to the 2019 RCIL Friends group schedule on page 5 in this newsletter to find out when your local RCIL Friends group plans to celebrate the ADA. Everyone is welcome to attend and learn more about the ADA!

When was the ADA signed into law?
July 26, 1990

I have a disability and I want to work. Where can I get assistance to find employment?
Contact your local Department for Children and Families (DCF) office and speak with a Vocational Rehabilitation (VR) Counselor. Also contact your local RCIL office to learn how to fill out a resume and employment applications.

If you have any questions or need any resources contact an Independent Living Specialist at 1-800-580-7245.
Moved?
If you've moved or changed your phone number, name, or email address, call 1.800.580.7245 so we can keep in contact with you!
